Straps

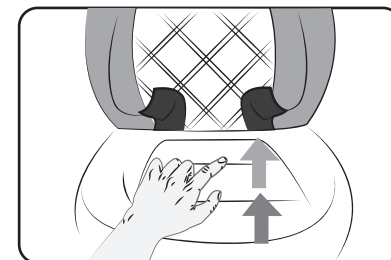

- 1 Slide the bottom seat covers onto the seat. Push the rear straps through the seat crevice. Attach the rear and front straps underneath the seat using the buckles.

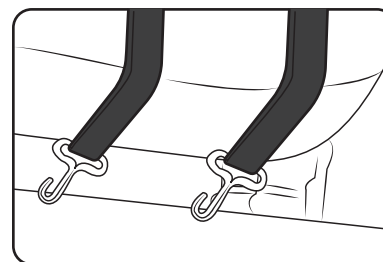

- 2 Open the hook-and-loop closures at the top of the backrest. Slide the backrest cover down over the headrest.

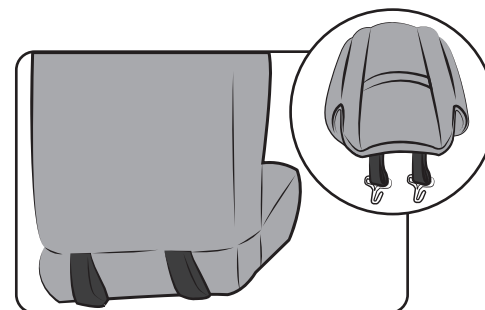

- 3 After the backrest is pulled down, close the top by securing the hook-and-loop pieces together around the base of the headrest.

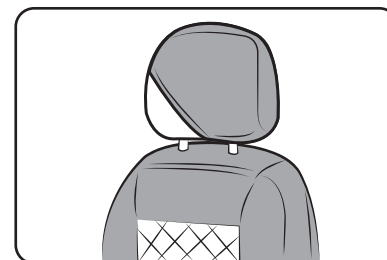

- 4 Push the straps through the seat crevice, and position the straps to the back of the seat.

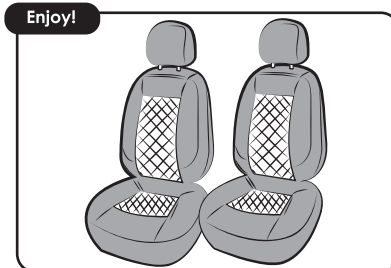

- 5 Locate the two hooks in the bag. Attach the hooks to the straps that were pushed through the crevice. Find a secure place to attach the hooks underneath your car seat.

- 6 Remove the additional hooks from the bag and add them to the two remaining straps located on the back of the backrest cover. Attach the hooks to the bottom portion of the seat, as shown above.

- 7 Slip on the headrest cover. TIP: Starting from either side of the headrest and sliding the cover sideways will help you achieve a secure fit.

- 8 Adjust accordingly, smooth out your custom fit seat covers and enjoy!
