- Slide the center console cover over the console following its contour and close the cover together using the hook-and-loop attachments. To install the seat bottom cover, place it over the seat, insert the 3 hook-and-loop straps through the seat crevice, and attach them to the seat's upholstery. Finally, insert into the seat the 5 plastic push clips located on the sides and front of the cover.

- Slide the 3-Row backrests covers over each backrest.
