

# CM5011-FRONT

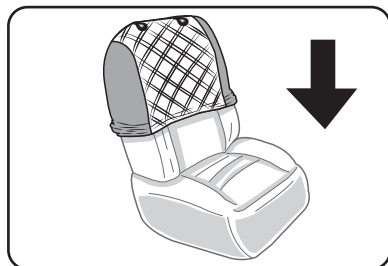

Video instructions are available at <https://www.fhgroupauto.com/product/seat-covers-2019-2022-toyota-rav4-full-set/>

## Warning

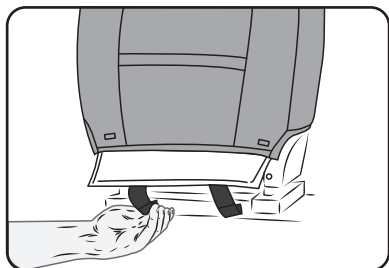

- Machine wash cold, delicate cycle. Air dry only.
- Avoid sharp objects to protect covers from being scratched/damaged.
- We suggest wearing protective eyewear and gloves during installation.

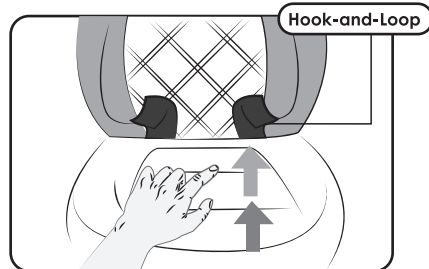

- 1 Detach the headrest by pressing the button located at the base of the headrest. Then simply lift the headrest to separate it from the backrest.

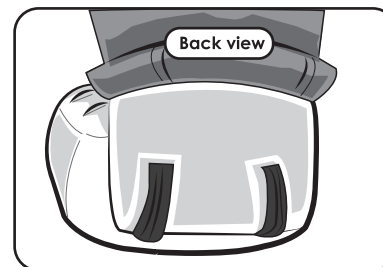

- 2 Place the backrest cover over the seat, making sure to align the holes for the headrests accordingly.

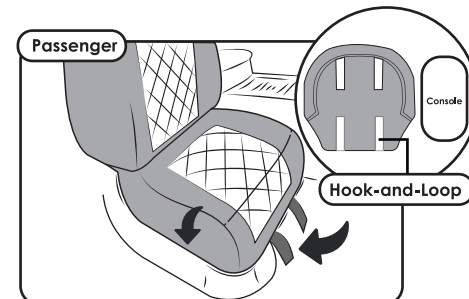

- 3 Remove the factory clips underneath the car seat to expose the underside of your car seats.

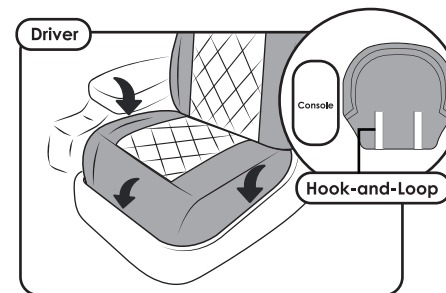

- 4 Push the straps through the seat crevice, and position the straps to the back of the seat.

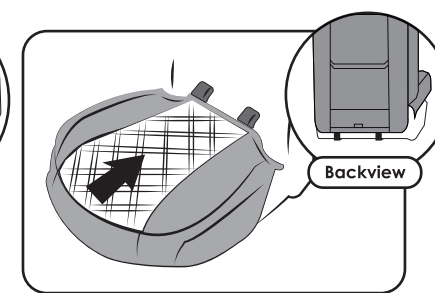

- 5 Once the hook-and-loop straps are pulled through the crevices of the seat, lift the flap of the seat cover. Attach those hook-and-loop straps directly to the upholstery of the seats.

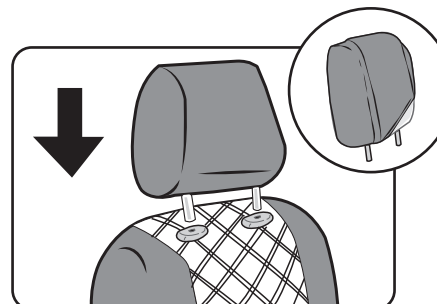

- 6a Place the bottom seat cover on the passenger seat. Tuck the sides of the seat cover into the car seat and tape the hook-and-loop near the center console to your car seat. Finally place your hook-and-loop-straps underneath your car seat.

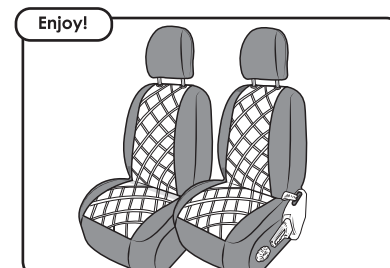

- 6b Place the bottom seat cover on the driver seat and tuck the edges of the cover into the crevices of the seat. Please note: The driver bottom piece has a foam hemline on the front instead of straps which should be tucked into the seat's crevice for a secure fit.

- 7 For the bottom seat cover (of both driver and passenger sides) push the hook-and-loop straps through the crevice, then tape the hook-and-loop straps onto the backside of your bottom seats. See image above.

- 8 Slip on the headrest cover. TIP: Starting from either side of the headrest and sliding the cover sideways will help you achieve a secure fit. Finally reattach the headrest to the top of the car seat.

- 9 Adjust accordingly, smooth out your custom-fit seat covers and enjoy!
