## Warning

- Machine wash cold, delicate cycle. Air dry only.
- Avoid sharp objects to protect covers from being scratched/damaged.
- We suggest wearing protective eyewear and gloves during installation.

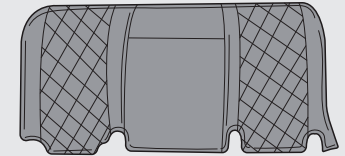

PACKAGE INCLUDES

Backrest 60 Side

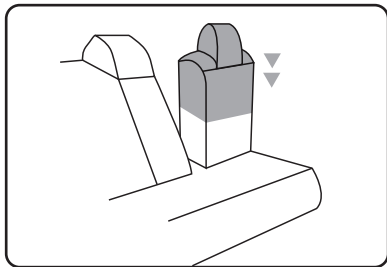

Backrest 40 Side

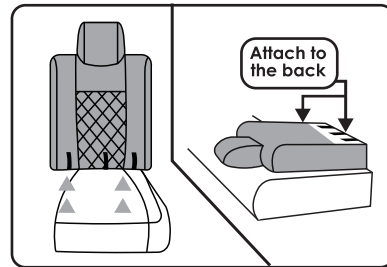

Bottom Seat

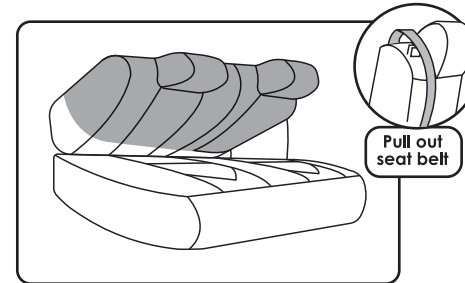

**PULL** Pull the lever located in the trunk to unlock the seat's backrest. Then, fold the split backrest.

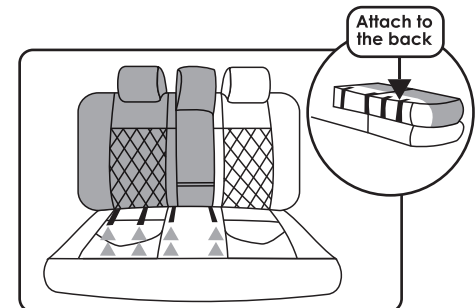

- ① To start, split the 40/60 car seats. Afterwards, pull out the seat belt and place the Backrest 40 side cover over the 40/60 split.

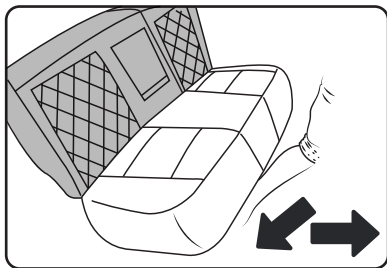

- ② Once the backrest cover is on, pass the hook-and-loop straps (indicated by the arrows) through the crevice of the seat and attach them directly to the seat's upholstery. We recommend splitting the car seat for this step.

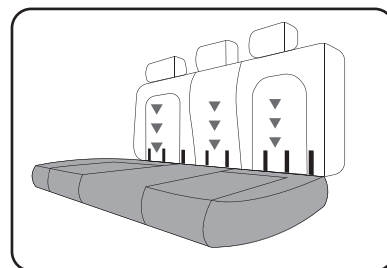

- ③ To install the backrest 60 side, fold the backrest forward and place the seat cover over the backrest. Note: Make sure you pull out the seat belt.

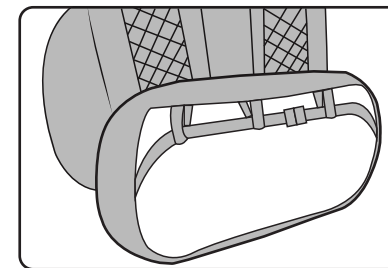

- ④ Push the rear hook-and-loop straps through the seat crevice and attach them directly to the upholstery of the backseats.

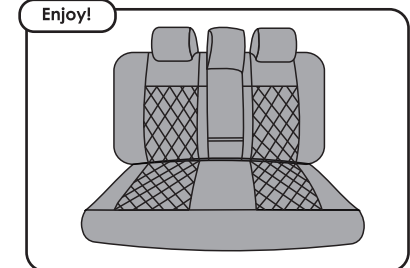

- ⑤ Create space underneath the bottom seats by pushing diagonally inward then pulling the bottom bench seat cushion up and out.

- ⑥ Place the bottom cover on the seat following the seat's shape. Then, push the hook-and-loop straps through the seat crevice and attach them directly to the upholstery of the seat.

- ⑦ Fix the cover edges as needed and attach the buckles under the cushion as shown in the image. Once completed, reattach the seat's bottom cushion to the vehicle.

- ⑧ Adjust accordingly, smooth out your custom-fit seat covers, and enjoy!
