Installation Manual
FB210/PU211102

1. Loop the strap on the butterfly disc.

2. Push the butterfly discs through the seat crevice and hold them against the back of your seat.

3. This is how your seat back is supposed to look like after you pushed the butterfly disc through.

4. Optional: For a more secure fit, hook the front elastic straps to any available bars/materials beneath the seat to fully secure the cover in place.
