

PU207/PU208

INSTALLATION MANUAL

1. Loop the strap on butterfly disc

2. Put the seat cushion on seat, slide over the headrest and buckle the strap

3. Push the butterfly discs through the seat crevice and hold them against the back of your seat

4. This is how your seat back supposed to look like after you pushed the butterfly discs through.

5. Optional: for a more secure fit, hook the front elastic straps to any available bars/metals beneath the seat to fully secure the cover in place.
