

# Installation Manual

FB091/FB092

Open the Velcro at the headrest to continue. Pull the seat cushion down to cover the backrest of the seat.

Once it is on snugly, close the top by securing the Velcro pieces together.

Slide the bottom cover onto the car seat.

Loop the butterfly discs to the straps of the upper and bottom portion of your cover. Your seat covers should look like this.

Push the butterfly discs through the center crevices of the seat.

The back of your seat should look like this.

For a more secure fit, use the hooks included in the bag to attach the front strap underneath the seat. **WE SUGGEST WEARING PROTECTIVE EYEWEAR AND GLOVES FOR THIS STEP!** You may have to look underneath or feel around for a secure place to hook the strap.

Next, cover the headrest with the provided cover. Start from the side, with your hand touching the metal pole, and slide over sideways to cover.
